SECTION : K19AZ

Submitted to : Ms. Ishatpreet Kaur

OBJECTIVE :

The main objective of creating a webpage on “car rental system” is to provide a facility of cabs in every possible part of India. To give facility of cabs to needed people at low cost and 24*7 . It is also covering the marriage booking facility and for reservation purposes. The creation of webpage is done to help in advertising the car rental services across the web so people can come to know about our services. Payments of reservation and booking can be done by both online and offline method. For any enquiry we are providing help desk also. We have done the designing of the page in that way so we can full fill customer needs in a proper manner. As we all know that now a days people are travelling 85 % of a day. So we are providing services to help them so they can be on right time and as our services in every part of our India. : Customers will able to access our service by mobile application soon. Our team is also working on that project. The main motive towards developing this startup to provide the same like uber, ola etc. But they are not providing facility in every part as well as they are not giving rides on low cost. Our cab will mainly focus on safe night rides and with proper rates.

Steps to EasyRide :

1st step : To sign up the Easy Ride by their information. They have to remember passcode for future use.

A screenshot of the Easy Ride mobile app's sign-up screen. The screen is pink with rounded corners. At the top is the Easy Ride logo and the text "SIGN UP". Below are three input fields: "Email" with placeholder "Enter Email", "Password" with placeholder "Enter Password", and "Confirm Password" with placeholder "Repeat Password". There is a checked checkbox for "Remember me". Below the fields is a line of text: "By creating an account you agree to our [Terms & Privacy](#)." At the bottom are two buttons: "Cancel" in orange and "Sign Up" in green.

2nd : Home page will consists of every facility such as about us, services with biggest deal in marriage season.

A screenshot of the Easy Ride website's home page. The header is dark grey with the Easy Ride logo on the left. Navigation links include "Home", "About us", "Rate card", "Services" (highlighted with a red underline), "Login", and "Sign Up". A dropdown menu under "Services" lists "Marriage booking", "Full day rent", and "outstation". A large red "DEAL!!" text is on the right. The main content area has a light blue background with the "Easy Ride" logo, radio buttons for "Hire" and "Self Ride", and three input fields: "enter your name", "Origin Location", and "Destination Location". The background image shows a car wheel, a watch, and a temple at night.

How it Works

Book & Pay

Pick your favourite car, time and place

Receive

We will deliver the car to your doorstep

Drive

Enjoy your Revv self drive

Return

Get the car back to your preferred return location, and we will take it from there

**Users can go with various range as per their need.
We are covering large number of models.**

Easy  Ride

Cars Available

Verna

starts from ₹2k/day

2013 | diesel | auto | 2500km

Baleno

starts from ₹1k/day

2013 | diesel | auto | 2500km
